

For Immediate Release

Nelson Family of Companies Continues Double-Digit Revenue Growth

Q2 Financials Show Revenue Up 72% Quarter Over Quarter

New Offices to Open in the UK and India

SONOMA, California, August 2, 2010 – The Nelson Family of Companies, the largest independently held human capital solutions company in Northern California, announced second quarter revenue growth of 72% over the previous year, and year-over-year revenue of 53%. Nelson Staffing and WorkforceLogic continue to lead the pack by showing double-digit revenue gains in Q1 and Q2.

In addition to this revenue growth, by the end of August, new branch offices will have opened in the UK and in India. It's an expansion being driven by the company's own objectives and the needs of its clients to provide global offerings. In order to accommodate the expansion of services, the company will increase its investment in technology and staff in the years 2010 and 2011.

"These past few years have been difficult for businesses and individuals alike," says Founder and Chairman, Gary Nelson. "It is gratifying to watch these revenue numbers grow and understand that it means more jobs for people everywhere. We have many exciting things going on right now."

More and more companies are finding talent all over the globe. With the growth of the global economy and technology, boundaries that existed before have come down, creating a more diverse and competitive environment in which businesses can flourish.

According to CEO Catherine Candland, "Market growth continues to drive our expansion into the European and Asian-Pacific regions to support our clients' business needs. Strong business practices in lean times have ensured that with the upturn in the economy, we're poised to grow into new markets as quickly as the partner companies that rely on us."
